The enactment at any time prior to the delivery of the Bonds, of Federal legislation which, in terms, by the repeal or omission of exemptions or otherwise, subjects, directly or indirectly, to a federal income tax the interest on bonds of a class or character which includes these Bonds will, at the election of the purchaser, relieve the purchaser from his obligations under the terms of the contract of sale and entitle the purchaser to the return, without interest, of the check or amount deposited with his bid as security.

Saul, Ewing, Remick & Saul, of Philadelphia, Bond Counsel for the Township, will be delivered at settlement, free of charge to the purchaser, together with a certificate that there is no litigation pending nor, to the knowledge of the signers, threatened adversely affecting the validity of the Bonds. (1) Authorizes the issuance of \$650,000 aggregate principal amount of General Obligation Bonds, Series of 1975 of the Township (the Bonds) to finance, either in whole or together with other available funds, certain projects (the Project) which the Township has undertaken, consisting of the following, including in each case, all necessary or incidental appurtenances; the construction of certain sewers; the construction of a library; the purchase of fire apparatus; the purchase of construction equipment; the purchase of trucks; the purchase and installation of traffic lights; the completion of construction of a fire tower; the reconstruction and improvement of Steel Road and the acquisition of land for recreational and historical purposes. It is stated in the Ordinance that the realistic estimated useful life of the Sewers, the Library, Steel Road and Land Acquisition is each in excess of forty years and that of the Traffic Lights, Trucks, Construction Equipment, Fire Apparatus, and Fire Tower is in excess of ten years.

(2) Contains a statement that the debt to be incurred through the issuance of the Bonds is non-electoral debt.

(3) Authorizes and directs the President or Vice President of the Board of Township Commissioners and the Township Secretary or Township Manager to prepare, verify and file the debt statement for the Township as required by the Local Government Unit Debt Act (the Act), to execute and deliver the Bonds and to take such further action and execute such other documents as may be required to carry out the intent and purpose of the Ordinance.

(4) States that the Bonds when issued will be general obligation bonds of the Township;

(5) Contains a covenant by the Township as required by the Constitution of the Commonwealth of Pennsylvania and by the Act that the Township shall include the amount of the debt service on the Bonds for each fiscal year, shall appropriate such amounts to the payment of such debt service, and that it shall duly and punctually pay the interest on and principal of the Bonds as the same become due and payable and that for such budgeting and payment the Township pledges its full faith, credit and taxing power;

(6) Provides for the form of Bond and coupons to be issued, the schedule of principal maturity amounts and dates, the rates of interest and interest payment dates, place of payment, sinking fund provisions and call dates and call prices of the Bonds;

(7) Awards and sells the Bonds at public sale to The Philadelphia National Bank, Philadelphia, Pa., for \$644,302.75 which Bonds mature serially in varying amounts on April 15 of each year from 1976 to 1985, inclusive, bear interest at rates ranging from 4.00% for the 1976 maturity to 5.4% for the 1985 maturity and have an average annual debt service of \$83,673.85;

(8) Contains a covenant by the Township creating the sinking fund for the Bonds and providing for the deposits to be made therein and appoints The Philadelphia National Bank as sinking fund depository and paying agent; and

Subject to the reserved right of the Township to reject any and all bids, the Bonds will be sold to the highest responsible bidder complying with the conditions of sale and bidding for the issue of Bonds at the lowest net interest cost to the Township, provided such bid is not less than 99% of the aggregate principal amount of the Bonds plus accrued interest to the date of delivery. Lowest net interest cost shall be determined by computing the total amount of interest to be paid on account of the Bonds calculated to stated maturity dates and subtracting therefrom the amount of any premium or adding thereto the amount of any discount.

The enactment at any time prior to the delivery of the Bonds, of Federal legislation which, in terms, by the repeal or omission of exemptions or otherwise, subjects, directly or indirectly, to a federal income tax the interest on bonds of a class or character which includes these Bonds will, at the election of the purchaser, relieve the purchaser from his obligations under the terms of the contract of sale and entitle the purchaser to the return, without interest, of the check or amount deposited with his bid as security.

The unqualified approving opinion of Messrs. Saul, Ewing, Remick & Saul, of Philadelphia, Bond Counsel for the Township, will be delivered at settlement, free of charge to the purchaser, together with a certificate that there is no litigation pending nor, to the knowledge of the signers, threatened adversely affecting the validity of the Bonds. Failure to deliver such unqualified opinion or the no litigation certificate, at the option of the purchaser, will relieve the purchaser from its obligations under the contract of sale and will entitle the purchaser to the return of the amount deposited with the bid. The Bonds will be delivered only if and after the proceedings authorizing the issuance thereof have been approved by the Department of Community Affairs of the Commonwealth of Pennsylvania.

3. ORDINANCE NO. 1609

AN ORDINANCE OF THE TOWNSHIP OF HAVERFORD, COUNTY OF DELAWARE, COMMONWEALTH OF PENNSYLVANIA AMENDING CERTAIN PROVISIONS OF ORDINANCE # 1531, THE SUBDIVISION AND LAND DEVELOPMENT ORDINANCE FOR ESTABLISHING A FEE SCHEDULE FOR INFORMAL REVIEWS BY THE HAVERFORD TOWNSHIP PLANNING COMMISSION OF REQUESTS FOR SUBDIVISION, LAND DEVELOPMENT AND ZONING CHANGE.

BE IT ENACTED AND ORDAINED by the Board of Commissioner of the Township of Haverford, County of Delaware, Commonwealth of Pennsylvania that it is hereby enacted and ordained by the authority of the same that:

SECTION 1. Short Title

This Ordinance may be known and may be cited as "The Fee Schedule Ordinance for Informal Reviews by the Haverford Township Planning Commission".

SECTION 2. Purpose

The Planning Commission of the Township of Haverford has on several occasions been requested to informally review certain development proposals so that prospective developers may obtain a sense of the commission's reaction to said development. These reviews are not legally binding and are not a part of the formal subdivision review provision as outlined in Ordinance No. 1531. They do, however, allow the developer to obtain a sense of the Planning Commission before resorting to the costly and often lengthy formal subdivision review process. This Ordinance is intended to establish a reasonable fee schedule for said informal reviews.

SECTION 3. Fees

A. An applicant for an informal review of subdivision or land development, or request for zoning change which involves five or less separate dwellings designed for and occupied by one family shall pay a fee of \$25. Should the applicant desire to subsequently file for formal review of said development proposal or zoning change, \$15 of this fee shall be applied toward the cost of the required application for formal subdivision, land development or condominium review as required by Ordinance 1531.

B. An applicant for all other zoning changes, subdivisions or land development shall be required to pay a fee of \$50 for said informal review. Should the applicant desire to subsequently file for formal review of said development proposal, \$25 of this amount shall be applied toward the cost of the required application for formal subdivision, land development or condominium review as required by Ordinance 1531.

SECTION 4. Repealer

Any Ordinance or part of an Ordinance to the extent that it is inconsistent is hereby repealed.

ORDINANCE NO. 1624

AN ORDINANCE OF THE TOWNSHIP OF HAVERFORD, COUNTY OF DELAWARE, COMMONWEALTH OF PENNSYLVANIA, FIXING THE ANNUAL SEWER RENTAL OR CHARGE FOR THE YEAR OF 1976, DETERMINING THE AMOUNT OF MONEY TO BE CHARGED TO EACH PROPERTY CONNECTED TO THE SEWER FOR EACH ONE THOUSAND GALLONS OF WATER CONSUMED, AND AMENDING ORDINANCE NO. 818, ADOPTED MARCH 13, 1950, TO REGULATE THE DISCHARGE OF WASTES OTHER THAN SANITARY SEWAGE INTO THE SEWER SYSTEM OF HAVERFORD TOWNSHIP AND TO PROVIDE A METHOD TO BE USED TO SET FEES FOR THE DISCHARGE OF SUCH WASTES.

BE IT ENACTED AND ORDAINED by the Board of Commissioners of the Township of Haverford, County of Delaware, Commonwealth of Pennsylvania, and it is hereby enacted and ordained by the authority of the same that:

SECTION 1. Rate Per Thousand Gallons

The Board of Commissioners does hereby determine seventy cents (70¢) per one thousand (1,000) gallons of water used by properties connected with the sewage system of the Township as the amount of money to be charged to each property connected to the Township Sewer System for the sewer rental or charge for 1976.

SECTION 2. Rate Per Gallon

The sewer rent or charge for the year 1976 for each property within the Township of Haverford using the sewer system and facilities of the Township shall be charged at the rate of \$0.00070 per gallon for water consumed or used by said property.

SECTION 3. Definition of Wastes

The discharge of water or wastes into the sewerage system shall have prior approval by the Board of Commissioners if:

- (a) the 5 day 20°C B.O.D. is greater than 300 p.p.m.
- (b) the Suspended Solids content is greater than 350 p.p.m.
- (c) the Chlorine Demand is greater than 15 p.p.m.
- (d) the average daily flow is greater than 400 gallons per day.
- (e) the content is of a toxic or non-biodegradable substance.
- (f) the wastes are considered by the Commissioners to offer possibilities of harm to any of their sewerage facilities.

Wastes described by one or more of the above characteristics shall be referred to herein as "Industrial Wastes".

SECTION 4. Requirements and Responsibilities of Users

All existing Industrial establishments who, upon the date of adoption of these Rules and Regulations, are discharging Industrial Wastes to the Sewerage System shall, upon request by the Board of Commissioners, file within three (3) months a questionnaire (supplied by the Township) which shall furnish all pertinent data including quantity of flow and an analysis of the water discharged to the Sewerage System. The Board of Commissioners may at its discretion require regular self-inspections and analysis by the user.

A. New Users

New establishments shall not begin to discharge any Industrial Waste into the system until the establishment has first submitted a written application to the Board of Commissioners for permission to do so and accompanied same with a detailed report prepared by a Registered Professional Engineer acceptable to the Board. The report must set forth a complete analysis of quantities, loading and characteristics, present and future, in conformance with the provisions of this Ordinance.

B. Existing Users

Existing establishments which are already connected may continue to discharge without an immediate detailed report to the Board of Commissioners. However, the Board may, in the future, require that those industries furnish a detailed report prepared by a Registered Professional Engineer acceptable to the Authority. The report must set forth a complete analysis of quantities, loading and characteristics, present and future, in conformance with the provisions of this Ordinance.

C. Right of Refusal

The Board of Commissioners reserves the right to refuse any Industrial Waste, discharge, require pretreatment facilities, or to compel discontinuance of the use of Township facilities. Should the Board decide to accept such industrial wastes they will be accepted only after satisfactory agreements have been entered into between the Board and the Industrial user, which may provide for the pretreatment of such Industrial Wastes, by the Industrial establishment, to prevent the discharge of wastes deemed to be harmful to the system.

SECTION 5. Analysis and Flow Measurement

A. Analysis Method

Analysis shall be made by using the laboratory methods for the examination of industrial waste as set forth in the latest edition of "Standard Methods for Examination of Water and Sewage" as published by the American Public Health Association. Samples collected shall be of the 24 hour composite type, collected over a three day period.

B. Manholes

Any user discharging Industrial or Industrial and Domestic Wastes into the Sewerage System shall construct and maintain at its expense suitable control manholes to allow measurement and sampling of their wastes. These manholes shall be approved by and be accessible to authorized representatives of the Township.

C. Pretreatment

If required, in the opinion of the Board of Commissioners, the user shall provide at his expense whatever pretreatment as may be necessary to bring the waste being discharged within the limits set forth in these Rules and Regulations.

D. Flow Measurement

If required, in the opinion of the Board of Commissioners, the discharger of Industrial Wastes shall install a suitable device for continuously indicating recording and totalizing the flow discharged to the Sewer System. All measuring devices and related facilities shall be approved by and be under the control of the Board of Commissioners. The discharger shall install and maintain such facilities at his own expense.

SECTION 6. Surcharge for Industrial Waste

A. Nature of Surcharge

If the nature of the Industrial Waste received from any user imposes a burden on the Township's facilities or if treatment of same results in an increase to the Township in the cost of operating and maintaining the System, the Board of Commissioners will impose an additional service charge (hereinafter called the surcharge) upon the user. Said charges shall be collected in addition to and by the same means as the regular sewer rents set forth under the existing Ordinance No. 818, and shall be subject to the same penalties.

B. BOD Provision

If an Industrial Waste is found to have a B.O.D. in excess of 300 p.p.m. the discharge of said waste shall be surcharged an amount equal to the product obtained by multiplying the actual volume of waste discharged (in thousand gallons) by the "B.O.D. Surcharge Rate". The "B.O.D. Surcharge Rate" shall be determined by the following formula:

$R_{B.O.D.} = 0.00834 A (B-300) + K$

$R_{B.O.D.}$ = the B.O.D. surcharge rate in cents per 1000 gallons of waste discharged.

0.00834 = constant to convert parts per million to pound per 1000 gallons.

A = the average annual fixed operating and maintenance cost of treatment processes per pound of B.O.D. (received at the treatment plant).

B = the average B.O.D. of the Industrial Waste expressed in parts per million as determined in accordance with Section 3. of this Ordinance.

300 = the maximum B.O.D. permissible without surcharge.

K = constant, in dollars, equal to engineering, legal and administrative costs incurred in determining surcharge.

C. Suspended Solids Provision

If an Industrial Waste is found to have an average suspended solids concentration in excess of 350 p.p.m., the producer of said waste shall be surcharged an amount equal to the product obtained by multiplying the actual volume of waste discharged (in thousand gallons) by the "Suspended Solids Surcharge Rate". The "Suspended Solids Surcharge Rate" shall be determined by the following formula:

$R_{ss} = 0.00834 C (S-350) + K$

R_{ss} = the Suspended Solids surcharge rate in cents per 1000 gallons of waste discharged.

0.00834 = constant to convert parts per million to pounds per 1000 gallons.

C = the average annual fixed operating and maintenance costs of the sludge digestion, drying and disposal operations per pound of suspended solids received at the treatment plant.

S = the average Suspended Solids concentration of the Industrial Waste expressed in parts per million as determined in accordance with Article IV, Section B, Paragraph 7.

350 = the maximum Suspended Solids concentration permissible without surcharge.

K = constant, in dollars, equal to engineering, legal and administrative costs incurred in determining surcharge.

D. Provision for Other Characteristics

Upon the issuance of any permit for the discharge of industrial waste requiring treatment of characteristics other than B.O.D. and Suspended Solids, the Board of Commissioners shall establish the rent to be paid for the use permitted thereunder, and upon approval by the Board, such rent shall be deemed imposed under this Ordinance.

SECTION 7. Enforcement

If any provision of this Ordinance, or the application of any provision hereof, shall be held invalid, such invalidity shall not affect or impair the remainder of this Ordinance, it being the intention of the Board of Commissioners that such remainder shall continue in full force and effect.

SECTION 8. Repealer

Any Ordinance or part of Ordinance to the extent that it is inconsistent is hereby repealed.

ENACTED AND ORDAINED by the Board of Commissioners of the Township of Haverford, County of Delaware, Commonwealth of Pennsylvania, this 8th day of December, A.D., 1975.

ORDINANCE NO. 1642

AN ORDINANCE OF THE TOWNSHIP OF HAVERFORD, DELAWARE COUNTY, PENNSYLVANIA, REGULATING AND ESTABLISHING CERTAIN STANDARDS CONTROLLING NOXIOUS OR OBNOXIOUS EXTERNALITIES OF NON-RESIDENTIAL USES WHICH AFFECT THE NATURAL ENVIRONMENT OF HAVERFORD TOWNSHIP.

BE IT ENACTED AND ORDAINED by the Board of Commissioners of the Township of Haverford, County of Delaware, Commonwealth of Pennsylvania and it is hereby enacted and ordained by the authority of the same that:

SECTION I. Short Title

This Ordinance shall be known and may be cited as "The Environmental Performance Standards Ordinance".

SECTION II. Purpose

It is the purpose of this Ordinance to provide performance standards to insure that all non-residential development in Haverford Township is environmentally compatible with adjacent land uses with respect to levels of noise, vibration, glare, emissions of sulfur oxides, smoke, dust and particulates, odor, and toxic materials.

SECTION III. Administration

A. Intent and Applicability. The environmental performance standards contained herein shall be the minimum standards to be met and maintained by all non-residential uses established after the effective date of this Ordinance. Standards established by other Township Ordinances, the Pennsylvania Department of Environmental Resources, or the United States Environmental Protection Administration shall apply where those standards are more restrictive than the standards set forth herein.

The standards contained in the Ordinance shall be applicable to all non-residential land uses in the Township of Haverford.

B. Environmental Performance Permit Application. An Environmental Performance Permit will be specifically required for all uses enumerated in Article V, Section 502.1 of Ordinance 1580 (permitted uses in an LIN Light Industrial District of the Haverford Township Zoning Ordinance of 1974), excepting office

uses, when said uses are initiated or expanded after the enacting of this ordinance. Such a permit is also required for uses being brought into conformity with the provisions of Section II.E below or for any other use which in the opinion of the Township Engineer may require regulation.

All applications for an Environmental Performance Permit shall be accompanied by a certification from a professional engineer registered in the Commonwealth of Pennsylvania that the proposed use can meet the performance standards set forth in this ordinance. All applications shall include, but shall not be limited to, the following informational items:

1. Plans of existing or proposed construction and development.
2. A description of existing or proposed machinery, processes and products.
3. Specifications for the mechanisms and techniques used or proposed to be used in restricting possible dangerous or objectionable conditions as set forth in this ordinance.
4. Measurements of the amount or rate of emission of any dangerous or objectionable elements as set forth in this ordinance.

C. Application Review. All applications for an Environmental Performance Permit shall be reviewed by the Township Engineer for compliance with these performance standards. No application for a use requiring an Environmental Performance Permit shall be approved by the Planning Commission, the Building Inspector, or Board of Commissioners until it is certified in writing by the Township Engineer that the proposed use can meet these standards.

D. Enforcement. The Building Inspector shall investigate any purported violation of these performance standards, and if there are reasonable grounds for same, shall direct the Township Engineer to determine the existence and nature of said violations.

1. The cost of engineering services incurred by the Township in establishing a violation shall be paid by the violator if said violation is established. If no violation is established, the cost shall be borne by the Township.
2. Any non-residential uses established after the effective date of this Ordinance and subsequently found to be operating in violation of the performance standards set forth in this Ordinance shall correct said violations

within sixty (60) days after certification of non-compliance is made by the Building Inspector. The Building Inspector shall certify non-compliance only after receipt of a report from the Township Engineer establishing said non-compliance with these performance standards.

B. Existing Non-Conforming Properties

1. All existing non-residential uses established prior to the effective date of this ordinance and not in conformance with the performance standards set forth herein may continue to operate but may not become more non-conforming.
2. All such uses, however, shall fully comply with these performance standards within five (5) years after certification by the Building Inspector of an instance of non-compliance. The Building Inspector shall certify non-compliance only after receipt of a report from the Township Engineer establishing said non-compliance with these performance standards.
3. All additions, expansions, or changes in process must conform with the applicable performance standards.

SECTION IV. Environmental Performance Standards

A. Noise

1. Noise shall be measured with a sound level meter having an A- weighted filter constructed in accordance with specifications of the American National Standards Institute (A.N.S.I.). Permissible noise levels may vary with respect to the zoning district in which the noise is perceived. Measurements are to be made at any point in a zoning district as indicated in Table I following.
2. Impact noise shall be measured using the fast response of the sound level meter. Impact noises are intermittent sounds such as from a punch press or drop forge hammer. Measurements are to be made at any point in the zoning districts as indicated in Table I.
3. Between the hours of 7:00 p.m. and 7:00 a.m. the permissible sound levels in a residential district shall be reduced by 5 decibels for impact noises.

4. The following sources of noise are exempt:
- (a) Transportation vehicles not under the control of the non-residential use.
 - (b) Occasionally used safety signals, warning devices, and emergency pressure relief valves.
 - (c) Temporary construction activity between 7:00 a.m. and 7:00 p.m.
5. The following Table I describes the maximum sound pressure level permitted from any non-residential source and measured on any adjacent lot.

Table I

Maximum Permitted Sound Levels Eminating from Non-Residential Uses
As Perceived in Various Zoning Districts, dB(A)

<u>Sound Measured in:</u>	(re: 0.002 Microbar) Decibels	
	<u>Continuous Slow Meter Response</u>	<u>Impact Fast Meter Response</u>
Residential, Institutional, Recreation and Open Space Districts	50	60
Commercial, Office, and Office-Laboratory Districts	60	70
LIN District	70	80

B. Vibration

1. Vibration shall be measured at or beyond any adjacent lot line or residential, institutional, or recreation and open space district line as indicated in Table II below and such measurements shall not exceed the particle velocities so designated. The instrument used for these measurements shall be a three component measuring system capable of simultaneous measurement of vibration in three mutually perpendicular directions.

2. The maximum vibration is given as particle velocity, which may be measured directly with suitable instrumentation or computed on the basis of displacement and frequency. When computed, the following formula shall be used:

$$P.V. = 6.28 F \times D$$

P.V. = Particle velocity, inches per second

F = Vibration frequency, cycles per second

D = Single amplitude displacement of the vibration, inches.

3. The maximum particle velocity shall be the vector sum of the three individual components recorded. Such particle velocity shall not exceed the values given in Table II.

Table II
Maximum Ground Transmitted Vibration
for Non-Residential Districts

<u>Particle Velocity, Adjacent Lot Line</u>	<u>Inches/Second Residential, Institutional, and Recreation and Open Space Dist.</u>
0.10	0.02

Where vibration is procuded as discrete impulses, and such impulses do not exceed a frequency of 100 per minute, then the values in Table II may be multiplied by two (2).

C: Dust and Particulates

1. The total emission rate of dust and particulate matter from all vents, stacks, chimneys, flues or other opening or any process, operation, or activity shall not exceed the levels set forth below.
2. The emission rate of particulate matter in pounds per hour from any single stack shall be determined by selecting a continuous 4-hour period which will result in the highest average emission rate.

3. Particulate matter emission from materials or products subject to becoming windborne shall be kept to a minimum by paving, oiling, wetting, covering or other means, such as to render the surface wind resistant. Such sources include vacant lots, unpaved roads, yards and storage piles of bulk material such as coal, sand, cinders, slag, sulfur, etc.
4. For non-residential uses, the maximum emission rate of dust and particulate matter from all stacks shall be 0.5 pounds per hour per acre of lot area.

D. Sulfur Oxides

1. Emission of oxides of sulfur (as sulfur dioxide) from combustion and other process shall be limited in accordance with the requirement stated below. The oxides of sulfur may be computed from the sulfur analysis in the fuel or from known test data of sulfur oxides emission.

ORDINANCE NO. 1669

AN ORDINANCE OF HAVERFORD TOWNSHIP, DELAWARE COUNTY, PENNSYLVANIA, ESTABLISHING A FLOOD PLAIN DISTRICT AND REGULATING ENCROACHMENTS THEREIN BY PROVIDING FOR CERTAIN MINIMUM STANDARDS FOR CONSTRUCTION WITHIN THE FLOOD PLAIN DISTRICT AND SETTING FORTH SPECIAL PROCEDURES FOR SUBMISSION AND APPROVAL OF PLANS; AND ESTABLISHING PENALTIES FOR ANY PERSONS WHO FAIL TO COMPLY WITH THE REQUIREMENTS OR PROVISIONS OF THIS ORDINANCE.

WHEREAS, The Board of Commissioners of the Township of Haverford, County of Delaware, Commonwealth of Pennsylvania, being cognizant of possible recurring flooding of the Cobbs Creek, Naylor's Run Creek, and the Darby Creek within the boundaries of the Township of Haverford; and

WHEREAS, the problem of flooding within the flood plains of the Cobbs Creek, Naylor's Run Creek, Darby Creek and tributaries thereof has been a project of study by the U.S. Army Engineer District, Philadelphia Corps of Engineers and by the U.S. Department of Housing and Urban Development, Federal Insurance Administration, which studies have resulted in flood plain delineations, copies of which are available from the Township Engineer.

NOW, THEREFORE, the Board of Commissioners of the Township of Haverford does hereby repeal Ordinance No. 1542 as amended, The Flood Plain Ordinance of Haverford Township, enacted February 11, 1974, and does enact and ordain this Ordinance.

Article I - Purpose and Policy

It is hereby found that the Cobbs Creek, Naylor's Run Creek, Darby Creek and tributaries thereof in the Township of Haverford are subject to recurring flooding, that such flooding damages and endangers life and public and private property and facilities, that this condition is aggravated by developments and encroachments in the flood plains, and that the most appropriate method of alleviating such condition is through regulation of such developments and encroachments. It is therefore determined that the special and paramount public interest in the flood plain justifies the regulation of property located therein as provided in this Ordinance, which is within the exercise of the police power of the municipality, for the protection of the persons and property of its inhabitants and for the preservation of the public health, safety and general welfare.

Article II - Content

- A. This ordinance consists of this text and U.S. Department of Housing and Urban Development, Federal Insurance Administration Type 15 Flood Insurance Study for the Township of Haverford. Said reports including maps and profile are on file in the offices of the Township Planning & Development Department and the Township Engineer, and are incorporated into this ordinance by reference as though fully set forth in this text.
- B. This ordinance shall also consist of any and all revisions and amendments of these texts, maps, and profiles as may be prepared from time to time.

Article III - Definitions

- A. As used herein the following terms have the meanings indicated:
 1. Channel

The bed and banks of Cobbs Creek, Naylor's Run Creek, Darby Creek and the tributaries of these streams which convey the normal flow of the stream that occurs most of the time.
 2. Design Flood

The relative size or magnitude of a flood, expressed as a design discharge in cubic feet per second, which is developed from hydrologic criteria; represents a major flood of reasonable expectancy, for the purposes of this ordinance the 100 year flood; reflects both flood experience and flood potential; and is the basis of the delineation of the flood hazard area and the water surface elevations thereof in the Flood Insurance Study.
 3. Design Flood Profile

The elevations of the water surface of the design flood as shown on the flood maps included in the Flood Insurance Study. When in the approximated flood plain, the design flood elevation shall be established as a point on the boundary of the approximated flood plain which is nearest to the construction in question.

4. Development

Any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

5. Flood Hazard Area

The floodway, floodway fringe, and approximated flood plain that are delineated in the Flood Insurance Study and Maps.

6. Flood Map

The maps identified in Article II of this ordinance and the Flood Insurance Study of which the maps are an integral part.

7. Flood Plain

- a. The relatively flat area adjoining the channel which has been or may be hereafter covered by flood water of the stream;
- b. An area subject to the unusual and rapid accumulation of run-off of surface waters from any source.
- c. For the purpose of this ordinance, the 100 year flood plain as defined by HUD/FIA.

8. Floodway (F1)

That portion of the flood hazard area required to carry and discharge the waters of the 100 year flood without increasing the water surface elevation at any point more than one (1) foot above existing conditions, as demonstrated in the Type 15 Flood Insurance Study for the Township referenced above.

9. Floodway Fringe (F2)

Those portions of land within the flood hazard area subject to inundation by the 100 year flood, lying beyond the floodway in areas where detailed study data and profiles are made available by the Township's Type 15 Flood Insurance Study.

10. Approximated Flood Plain (F3)

Those portions of land within the flood hazard area subject to inundation by the 100 year flood, where a detailed study has not been performed, but where a 100 year flood plain boundary has been approximated by the Township's Type 15 Flood Insurance Study.

11. Floodproofing

Any combination of structural and non-structural additions, changes, or adjustments to properties and structures which reduce or eliminate flood damage to lands, water and sanitary facilities, structures, and contents of buildings.

12. Mobile Home

A structure, transportable in one or more sections, which is eight body feet or more in width and is thirty-two body feet or more in length, and which is built on a permanent chassis, and designed to be used as a dwelling with or without permanent foundation, when connected to the required utilities, and includes the plumbing, heating, air-conditioning, and electrical systems contained therein.

13. New Construction

Structures for which the Start of Construction as herein defined commenced on or after the effective date of this ordinance. This term does not apply to any work on a structure existing before the effective date of this ordinance.

14. One Hundred Year Flood

A flood that has one chance in one hundred or a one percent chance of being equaled or exceeded in any year. For the purposes of this ordinance, the 100 year flood (design flood) as defined by the Federal Insurance Administration, U.S. Department of Housing and Urban Development, in the Type 15 Flood Insurance Study, Township of Haverford, Delaware County.

15. Start of Construction

The first placement of permanent construction of a structure (other than a mobile home) on a site such as the pouring of slabs or footings or any work beyond the stage of excavation. Permanent

construction does not include land preparation, such as clearing, grading, and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages, or sheds not occupied as dwelling units or not as part of the main structure. For a structure (other than a mobile home) without a basement or poured footings, the "start of construction" includes the first permanent framing or assembly of the structure or any part thereof on its piling or foundation. For mobile homes "start of construction" means the affixing of the mobile home to its permanent site.

16. Structure

A walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a mobile home.

17. Principally Above Ground

Where at least 51 percent of the actual cash value of a structure, less land value, is above ground.

18. Subdivision

The division or redivision of a lot, tract, or parcel of land by any means into two or more lots, tracts, parcels, or other divisions of land, including changes in existing lot lines for the purpose, whether immediate or future, of lease, transfer of ownership, or building, or lot development; provided, however, that the division of land for agricultural purposes into parcels of more than ten (10) acres, not involving any new street or easement of access, shall be exempted.

19. Substantial Improvement

a. Any repair, reconstruction, or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure either:

- 1.) before the improvement or repair is started, or
- 2.) if the structure has been damaged, and is being restored, before the damage occurred.

- b. For the purposes of this definition "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration affects the external dimensions of the structure. The term does not, however, include either
 - 1.) any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specifications which are solely necessary to assure safe living conditions, or
 - 2.) any alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.

Article IV - Establishment of the Flood Hazard Area

- A. The flood hazard area shall include all areas subject to inundation by the waters of the 100 year flood. The source of this delineation shall be the Type 15 Flood Insurance Study for the Township of Haverford, Delaware County, Commonwealth of Pennsylvania, as prepared by the U.S. Department of Housing and Urban Development, Federal Insurance Administration.
- B. The flood hazard area shall be comprised of three (3) subdistricts as follows:
 - 1. Floodway (F1)
 - 2. Floodway fringe (F2)
 - 3. Approximated flood plain (F3)
- C. The delineation of the flood hazard area may be revised, amended and modified by the Township in compliance with the National Flood Insurance Program when:
 - 1. There are changes through natural or other causes
 - 2. Changes are indicated by future detailed hydrologic and hydraulic studies, and/or
 - 3. When social and economic factors favor a realignment
- D. All such changes shall be subject to the review and approval of the Federal Insurance Administrator.

Article V - Applicability

A. General Standards

1. Flood Hazard Area

- a. All uses, activities, and developments in the flood hazard area shall be undertaken in strict compliance with the floodproofing and related provisions contained herein, and all other applicable codes, ordinances and regulations.
- b. In cases of doubt or uncertainty as to the exact limits of the floodway or flood hazard area, the Township Engineer may, upon the application and with the consent of the landowner, determine the precise location of a floodway or flood hazard area limit by close inspection, field survey or other appropriate method and cause the same to be marked on the ground, notifying the landowner, and supply the Building Inspector and the Planning Board of the results thereof.
- c. A request for a letter of verification from the Building Inspector as to the identification of the property in the flood hazard area shall be submitted together with the required fee of twenty dollars (\$20).

B. The following regulations shall govern developments in the floodway, flood fringe, and approximated flood plain:

1. Floodway (F1) and Approximated Flood Plain (F3)

- a. No encroachments, including fill, new construction, substantial improvements, and other development shall be permitted within the adopted regulatory floodway (F1) and approximated flood plain (F3) that would result in any increase in flood levels at any point except in accordance with a permit issued therefore as provided by this ordinance; provided, however, that accepted practices of soil husbandry, and the harvesting of crops, in connection with farming, lawns, gardens, and recreational usage that do not include structures, are not included in the foregoing prohibitions. No permit shall be issued unless the effect of such developments on flood

heights is fully offset by accompanying stream improvements which have been approved by all appropriate local and/or state authorities. When a developer proposes to offset the effects of development in the floodway and approximated flood plain by construction of stream improvements, he shall submit an engineering study prepared by a Registered Professional Engineer which fully evaluates the effects of such construction. The report shall use the design flood as herein defined as the basis of analysis. All adjacent communities and the Department of Community Affairs (State Coordinating Office) and the Department of Environmental Resources shall be notified by the developer by certified mail of all such intended activities prior to any alteration or relocation of a watercourse, and shall submit copies of such notifications to the Federal Insurance Administrator. In addition, the developer shall assure the Township, in writing, that the flood carrying capacity within the altered or relocated portion of the watercourse in question will be maintained.

- b. In the floodway and approximated flood plain, the placement of any mobile home shall be prohibited.

2. Floodway Fringe (F2)

- a. No building or structure shall be erected or moved, or substantially improved in the floodway fringe if the elevation of any floor thereof, including cellar, shall be less than one foot above the design flood profile, or if not floodproofed (non-residential structures only) to one foot above the design flood profile.
- b. When a developer intends to alter or relocate a watercourse within the floodway fringe, he shall notify, in writing by certified mail, all adjacent communities and the Pennsylvania Department of Community Affairs (State Coordinating Office) and the Department of Environmental Resources of all such intended activities prior to any alteration or relocation of the watercourse, and shall submit copies of such notifications to the Federal Insurance Administrator. The developer shall also assure the Township, in writing, that the flood carrying capacity within the altered or relocated portion of the watercourse in question will be maintained.

3. Non-conformities in the Flood Hazard Area

- a. Existing non-conformities (structures and/or uses) located in the floodway shall not be expanded or enlarged unless the effect of the proposed expansion or enlargement on flood heights is fully offset by accompanying stream improvement.
- b. Any modification, alteration, repair, reconstruction, or improvement of any kind to a non-conformity (structure and/or use) located in the flood hazard area to an extent or amount of less than fifty (50) percent or more of its market value, should be elevated and/or flood-proofed to the greatest extent possible.
- c. Modification, alteration, repair, reconstruction, or improvement of any kind to a non-conformity (structure and/or use) in the flood hazard area, to an extent or amount of fifty (50) percent or more of its market value shall be undertaken only in full compliance with the provisions of this and any other applicable ordinance.

Article VI - Criteria for Building Permit and Site Plan Approval

A. Building Permit Criteria

1. Building permits are required in order to determine whether all new construction or substantial improvements are:
 - a. Designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement.
 - b. Constructed with materials and utility equipment resistant to flood damage.
 - c. Constructed by methods and practices that minimize flood damage.
2. In addition to the information normally required by the Township in a building permit application, and depending on the type of structure involved, the following information shall also be included in the building permit for work within the flood hazard area.

a. For structures to be elevated to an elevation at least one (1) foot above the design flood profile:

- 1.) A plan showing the size of the proposed structure(s) and its relation to the lot where it is to be constructed.
- 2.) A determination of elevations of the existing ground, proposed finished ground, lowest floors certified by a Registered Professional Engineer or Surveyor.
- 3.) Plans showing the method of elevating the proposed structure, including details of proposed fills, pile structures, retaining walls, foundations, erosion protection measures, etc. When required by the Building Inspector, these plans shall be prepared by a Registered Professional Engineer.
- 4.) Plans showing the methods used to protect utilities (including sewer, water, telephone, electric, gas, etc.) from flooding to an elevation at least one (1) foot above the design flood profile at the building site.

b. For structures to be floodproofed to an elevation at least one (1) foot above the design flood profile (non-residential structures only):

- 1.) Plans showing details of all floodproofing measures, prepared by a Registered Professional Engineer, and showing the size of the proposed structure and its relation to the lot where it is to be constructed.
- 2.) A determination of elevations of existing ground, proposed finished ground, lowest floors, and floodproofing limits; certified by a Registered Professional Engineer or Surveyor.
- 3.) A certificate prepared by the Registered Professional Engineer or Architect who prepared the plans in a. above, that the structure in question, together with attendant utility and sanitary facilities is designed so that:

- a.) Below an elevation at least one (1) foot above the design flood profile the structure is watertight with walls substantially impermeable to the passage of water.
- b.) The structure will withstand the hydrostatic, hydrodynamic buoyant, impact, and other forces resulting from the flood depths, velocities, pressures, and other factors associated with the design flood.

3. Minimum Floodproofing Standards

In order to prevent excessive damage to buildings and structures, the following restrictions shall apply to all new construction and to construction of substantial improvements to existing structures occurring in the flood hazard area.

a. Basements and Lowest Floors

All new construction and substantial improvements of residential structures must have the lowest floor (including basement) elevated equal to or above an elevation of one (1) foot above the design flood profile. All new construction and substantial improvements of non-residential structures must have the lowest floor (including basement) elevated equal to or above an elevation of one (1) foot above the design flood profile; or, together with attendant utility and sanitary facilities, be designed so that below an elevation of one (1) foot above the design flood profile the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy.

b. Fill

If fill is used to raise the finished surface of the lowest floor equal to or above an elevation of one (1) foot above the design flood profile:

- 1.) Fill shall extend beyond a structure for a sufficient distance to provide acceptable access. For residential structures, fill shall extend laterally fifteen (15) feet

beyond the building line from all points. For non-residential structures, fill shall be placed to provide access acceptable for intended use. At-grade access, with fill extending laterally fifteen (15) feet beyond the building line, shall be provided to a minimum of twenty-five (25) percent of the perimeter of a non-residential structure

- 2.) Fill shall consist of soil or rock materials only. Sanitary land fills shall not be permitted.
- 3.) Fill material shall be compacted to provide the necessary stability and resistance to erosion, scouring, or settling.
- 4.) Fill slopes shall be no steeper than one (1) vertical on two (2) horizontal, unless substantiating data justifying steeper slopes are submitted to and approved by the Building Inspector.
- 5.) Fill shall be used only to the extent to which it does not adversely affect adjacent properties.

c. Placement of Buildings, Structures and Mobile Homes

- 1.) All buildings and structures shall be constructed and placed on the lot so as to offer the minimum obstruction to the flow of water and shall be designed to have a minimum obstruction effect upon the flow and height of flood water.
- 2.) The following shall not be placed or caused to be placed in the designated floodway: fences, except two-wire fences, other matters which may impede, retard, or change the direction of the flow of water or that will catch or collect debris carried by such water, or that is placed where the natural flow of the stream or flood waters would carry the same downstream to the damage or detriment of either public or private property adjacent to the flood plain.
- 3.) Mobile homes shall be elevated on compacted fill or on pilings so that the lowest floor of each mobile home will be at least one (1) foot above the design flood profile.

- 4.) Adequate surface drainage and access for a mobile home hauler shall be provided.
- 5.) When mobile homes are to be elevated on pilings, lots shall be large enough to permit steps, piles shall be placed in stable soil no more than ten feet apart and reinforcement shall be provided for pilings more than six feet above the ground level.

d. Anchoring

- 1.) All buildings and structures shall be firmly anchored in accordance with accepted engineering practices to prevent flotation, collapse, and lateral movement, thus reducing the threat to life and property and decreasing the possibility of the blockage of bridge openings and other restricted sections of the watercourse.
- 2.) All air ducts, large pipes and storage tanks located at or below the first floor level shall be firmly anchored to resist flotation.
- 3.) All mobile homes shall be anchored to resist flotation, collapse, or lateral movement by providing over-the-top and frame ties to ground anchors.
Specifically:
 - a.) Over-the-top ties shall be provided at each of the four corners of the mobile home, with two additional ties per side at intermediate locations, with mobile homes less than 50 feet long requiring one additional tie per side.
 - b.) Frame ties shall be provided at each corner of the home with five additional ties per side at intermediate points, with mobile homes less than 50 feet long requiring four additional ties per side.
 - c.) All components of the anchoring system shall be capable of carrying a force of 4,800 pounds.
 - d.) Any additions to a mobile home shall be similarly anchored.

e. Storage

No new construction which stores materials that are bouyant, flammable, explosive, or in times of flooding could be injurious to human, animal or plant life, shall be stored below an elevation of one (1) foot above the design flood profile.

B. Site Plan Criteria

1. In addition to the information normally required by the Township for review and approval of preliminary plans, the owner or developer of any proposed subdivision or other development shall submit the following information:
 - a. Name of engineer, surveyor, or other qualified person responsible for providing the information required in this section.
 - b. A map showing the location of the proposed subdivision and/or development with respect to the municipality's flood-prone areas, proposed lots and sites, fills, flood or erosion protective facilities and areas subject to special deed restrictions. In addition, it is required that all subdivision proposals and other proposed new developments shall include design flood elevation data.
 - c. Where the subdivision and/or development lies partially or completely in the flood-prone areas, the plan map shall include detailed information giving the location and elevation of proposed roads, public utilities, and building sites. All such maps shall also show contours at intervals of two (2) feet and identify accurately the boundaries of the flood-prone areas.
 - d. Copies of all Federal and State permits required for construction of the facilities shown on the Subdivision Plan; which may include, but are not limited to, Water Quality Management Permits, Erosion and Sedimentation Control Permits, Dams and Encroachments Permits, and Driveway Permits.
 - e. A record of this information must be kept on file by the Township of Haverford.

2. For all proposed subdivisions or other developments, the Planning Director shall require:
 - a. All new or replacement water systems located in the flood hazard area, whether public or private, shall be floodproofed to a point at least one (1) foot above the design flood profile.
 - b. All new or replacement sanitary disposal systems located within the flood hazard area whether public or private, shall be floodproofed to an elevation of at least one (1) foot above the design flood profile.
 - c. All other new or replacement public and/or private utilities and facilities shall be elevated or floodproofed to a point at least one (1) foot above the design flood profile.
 - d. Plans for adequate drainage facilities which shall conform to the standards of the Township Engineer to reduce exposure to flood hazards.

Article VII - Procedure

The following procedure shall govern the issuance of such permits as required by the provisions of Articles V and VII of this ordinance.

A. Building Permits and Site Plan Approvals Required

1. It shall be unlawful for any person, partnership, business, or corporation to undertake, or cause to be undertaken the new construction, substantial improvement, or relocation of any structure (including mobile homes) within the flood hazard area, unless the necessary permits have been obtained from the Building Inspector. In addition, where land is to be subdivided, a site plan must be submitted to, and approved by, the Building Inspector and Planning Commission prior to any development.

B. Application Procedures

1. The property owner or contractor shall apply to the Planning Director for approval of development plans, which shall be submitted with the application. Such plans shall include a true and accurate plot plan, submitted in numbers as provided for by Township ordinances, drawn to

a scale of not less than one inch equals fifty feet with contour lines at intervals of not more than two feet, showing the exact size, shape, location and elevation of existing and proposed buildings and structures and of any proposed fill or regrading, the exact dimensions and acreage of each lot or plot to be built upon or otherwise used, the location, layout and elevation of existing and proposed parking areas, driveway drainage, sewer and water facilities and connections, plantings, seedings, screenings, fences and signs, and such other information as shall be reasonably required for an evaluation of the effect of the development upon flood control in addition to other requirements contained in the Township Subdivision and Development Ordinance. All permits and plans shall be approved only after it has been determined that the proposed work to be undertaken will be in conformance with the requirements of this and all other applicable codes and ordinances, and that all necessary permits have been received from those governmental agencies from which approval is required by Federal or State law, including, but not limited to, Section 404 of the Federal Water Pollution Control Act Amendments of 1972.

2. The Planning Director shall, within thirty days after receiving the application, forward the same and the development plans submitted therewith, together with his written report thereon, to the Planning Commission for review.
3. The Planning Commission shall review the application, and after giving the applicant an opportunity to appear and be heard with respect thereto, shall approve or disapprove the same within the time limits provided by the Pennsylvania Municipalities Planning Code. Approval may be conditional upon the applicant's adoption of specified changes. The Planning Commission shall state its findings and the reasons for its action in writing, and a copy thereof shall be given to the applicant.
4. If the application shall be approved by the Planning Commission and by such other governmental authorities as have jurisdiction in the premises, the Building Inspector shall issue a permit for the development in accordance with such approval. After the issuance of a building permit or site plan approval by the Building Inspector, no changes of any kind shall be made to the application, permit

or any of the plans, specifications or other documents submitted with the application without the written consent or approval of the Building Inspector.

5. If the Planning Commission shall fail to take final action within the time limits as provided by the Municipalities Planning Code, the application shall be deemed to have been approved.
6. During the construction period, the Building Inspector or other authorized official may inspect the premises to determine that the work is progressing in compliance with the information provided on the permit application and with all applicable laws and ordinances. In the event that the Building Inspector discovers that the work does not comply with the permit application or any applicable laws and ordinances, or that there has been a false statement or misrepresentation by any applicant, the Building Inspector shall revoke the building permit and report such fact to the Board of Commissioners for whatever action it considers necessary.

C. Appeals

If any person shall be aggrieved by the action of the Planning Commission, an appeal in writing to the Board of Commissioners may be taken within ten days after the date of such action. The Board of Commissioners shall fix and notify appellant of a time and place for a public hearing on said appeal, and the appellant shall cause notice of such hearing to be published in a newspaper circulating in the Township at least ten days prior to the hearing. All parties in interest shall be afforded an opportunity to be heard thereat. After such hearing, the Board of Commissioners shall affirm or reverse the action of the Planning Commission, stating its findings and reasons for its actions, and a written copy of such action shall be given to the appellant.

Article VIII - Petition for Relief from Requirements

- A. In reviewing petitions for relief from the requirements of this ordinance, the Planning Commission shall consider and be guided by the general purposes set forth in Article I, and in addition, shall apply the following standards:

1. Petitions for relief shall not be granted for development within the designated regulatory floodway if any increase in flood levels during the design flood discharge would result.
2. Petitions for relief shall only be granted upon:
 - a. A showing of good and sufficient cause,
 - b. A determination that failure to grant the petition for relief would result in exceptional hardship to the applicant, and
 - c. A determination that the granting of the petition for relief will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisance, cause fraud on, or victimization of the public, or conflict with existing local laws or ordinances.
3. Petitions for relief shall only be granted upon a determination that the relief is the minimum necessary, considering the flood hazard.
4. The Planning Commission shall notify the applicant in writing over the signature of the Chairman of the Planning Commission and/or the Planning Director that:
 - a. The granting of a petition for relief to construct a structure below one foot above the design flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage, and
 - b. Such construction below one foot above the design flood level increases the risk to life and property.

Such notification shall be maintained by the Township with a record for all petitions granted, including justification for their granting, and a report of such petitions granted shall be included in the annual report to the Federal Insurance Administrator.

Article IX - Validity and Severability

If any provisions of this ordinance shall be adjudged invalid, such adjudication shall not affect the validity of the remaining provisions, which shall be deemed severable.

Article X - Liability

The grant of a zoning permit or approval of a subdivision plan involving flood plain delineation shall not constitute a representation, guarantee or warranty of any kind by the Township or by any official or employee thereof of the practicability or safety of the proposed use, and shall create no liability upon the Township, its officers or employees.

Article XI - Precedence

AN ORDINANCE OF THE TOWNSHIP OF HAVERFORD, COUNTY OF DELAWARE, COMMONWEALTH OF PENNSYLVANIA, FURTHER AMENDING AND SUPPLEMENTING ORDINANCE NO. 1580, THE ZONING ORDINANCE OF THE TOWNSHIP OF HAVERFORD.

BE IT ENACTED AND ORDAINED by the Board of Commissioners of the Township of Haverford, County of Delaware, Commonwealth of Pennsylvania, and it is hereby enacted and ordained by the authority of the same:

Section 1. That Article 600, Section 601 of Ordinance 1580 (Institutional Districts) be amended as follows:

Section 601 INS-INSTITUTIONAL DISTRICT

Specific Intent

It is the purpose of this District to encourage the development of institutional uses in accordance with approved standards, to insure the compatibility of Institutional uses with surrounding land use, and to promote the planning for the location of future Institutional uses serving a regional population.

In any INS district, land, buildings or premises shall be used by right for only one or more of the following:

1. Governmental use or building; public utility use or building.
2. Community center, public library, public park.

B. Conditional Uses

In any INS district, land, buildings or premises may be used for one or more of the following uses if authorized by the Board of Commissioners, acting upon recommendations from the Planning Commission. Such authorization shall be granted only after a finding by the Board of Commissioners that the proposed use is compatible with surrounding land uses and that the proposed use will not unduly burden the neighborhood with increases in traffic, noise, threats to health and safety, or other external factors.

1. Hospital (general, medical or surgical), sanitarium, medical or health center, convalescent home, nursing home or similar health facility.
2. Church, chapel, convent, or similar religious institution, including rectory or parish house.

2. The tract of land on which each permitted use is conducted shall, in its entirety, be owned and operated as a single or common management and maintenance unit, with common open spaces, parking, utility, maintenance and service facilities and services.

601.4 Future Use of Institutional Lands

Because of the unique character of Institutional land, it is not necessarily true that land zoned so as to permit one Institutional use by right or by condition may be suitable to permit another use of a different character even though that use may also be permitted as a use by right or by condition in the Institutional Zoning District.

It is the intent of this Section that provision be made to insure a reasonable choice of appropriate uses for a property presently zoned for Institutional use. In the event of the non-use, abandonment, or change in the current use of any Institutionally zoned land, the Planning Commission on its own motion, or upon petition for re-zoning, shall review the specific site and make a recommendation to the Board of Township Commissioners concerning the most appropriate use for the site, and shall recommend a zoning district classification for the zoning map to accommodate such use.

The Committee shall make an annual report to the township commissioners containing a brief summary of its work during the year, which shall be available for public inspection.

I. General Provisions Relating to Examinations

The Committee shall make rules and regulations to be approved as provided in Section D hereof, providing for the examination of applicants for positions in the police force and for promotions, which rules and regulations shall prescribe the minimum qualifications of all applicants to be examined and the passing grades. All examinations for positions or promotions shall be practical in character and shall relate to such matters and include such inquiries as will fairly test the merit and fitness of the persons examined to discharge the duties of the employment sought by them. All examinations shall be open to all applicants who have the minimum qualifications required by the rules and regulations. Each applicant for examination shall be subject to the regulations adopted by the Committee and shall be required to submit to a physical examination before being admitted to the regular examination

held by the Committee.

Public notice of the time and place of every examination, together with the information as to the kind of position or place to be filled, shall be given by publication once in a newspaper of general circulation in the township or in a newspaper circulating generally in the township for at least two weeks prior to each examination, and a copy of the notice shall be prominently posted in the office of the Committee or other public place.

The Committee shall post in its office the eligible list containing the names and grades of those who have passed the examination. Persons male or female who served in the military or naval service of the United States during any war in which the United States has been, is now, or shall hereafter be engaged and who have honorable discharges from such service, who have successfully passed the examination, shall be given the additional credits, amounting to 10 points, and preference in appointment as provided for by law.

J. Application for Examination

Each person desiring to apply for examination shall file with the Committee formal application in which the applicant shall state under oath or affirmation, (a) his full name and residence or post office address, (b) his citizenship, place and date of birth, (c) his condition of health and physical capacity for public service, (d) his business or employment and his residence for the past five years, and (e) such other information as may be required by the Committee's rules and regulations showing the applicant's qualifications for the position for which he is being examined.

K. Rejection of Applicant; Hearing

The Committee may refuse to examine or, if examined, may refuse to certify after examination as eligible, any applicant who is found to lack any of the minimum qualifications for examination prescribed in the rules and regulations adopted for the position or employment for which he has applied, or who is physically disabled and unfit for the performance of the duties of the position to which he seeks employment, or who is addicted to the habitual use of intoxicating liquors or narcotic drugs, or who has been guilty of any crime involving moral turpitude or of infamous or notoriously disgraceful conduct, or who has been dismissed from public service for delinquency

or misconduct in office, or who is affiliated with any group whose politics or activities are subversive to the form of government set forth in the Constitution and laws of the United States and Pennsylvania.

If any applicant or person feels himself aggrieved by the action of the Committee in refusing to examine him or to certify him as eligible after examination, the Committee shall, at the request of such person, within ten (10) days appoint a time and place where he may appear personally and by counsel. Whereupon, the Committee shall then review its refusal to make such examination or certification and take such testimony as may be offered. The decision of the Committee shall be final.

L. Manner of Filling Appointments

Every position of employment in the police force except that of chief of police or equivalent shall be filled only in the following manner: the Township Commissioners shall notify the Committee of any vacancy which is to be filled and shall request the certification of a list of eligibles. The Committee shall certify for each existing vacancy from the eligible list the names of three persons thereon who have received the highest average. The Committee shall, thereupon, with sole reference to the merits and fitness of the candidates make a recommendation to the chief of police for his consideration and appointment from the three names certified unless he makes objections to the Committee as to one or more of the persons so certified for any of the reasons stated in Section K of this subdivision. Should such objections be sustained by the Committee, as provided in said Section, the Committee shall thereupon strike the name of such person from the eligible list and certify the next highest name for each name stricken off. As each subsequent vacancy occurs in the same or another position, precisely the same procedure shall be followed.

In the case of a vacancy in the office of chief of police or equivalent official, the Township Commissioners shall fill the vacancy.

M. Age; Applicant's Residence

No person shall be eligible to apply for examination unless he is more than eighteen years of age at the date of application. Any applicant who resides in the Township will be given two points credit. However, this credit in addition to any credit given for veterans' preference

shall not exceed a total of ten points.

Applicants for appointment to the Township service need not be residents of the Township at the time of appointment. But as soon as possible thereafter, and within one year after completing their probationary period and gaining permanent status, they must reside, and during their tenure remain, within a ten mile radius of the police station, unless otherwise specifically authorized by the Board of Commissioners.

N. Probation Period

All original appointments to any position in the police force shall be for a probationary period of two years, but during the probationary period an appointee may be dismissed only for a cause specified in Section K of this subdivision. If at the close of a probationary period the conduct or fitness of the probationer has not been satisfactory to the Township Commissioners, the probationer shall be notified in writing that he will not receive a permanent appointment. Thereupon, his appointment shall cease; otherwise, his retention shall be equivalent to a permanent appointment.

O. Provisional Appointments

Whenever there are urgent reasons for the filling of a vacancy in any position in the police force and there are no names on the eligible list for such appointment, the township commissioners may nominate a person to the Committee for non-competitive examination and if such nominee shall be certified by the Committee as qualified after such non-competitive examination, he may be appointed provisionally to fill such vacancy. It shall thereupon become the duty of the Committee within three weeks to hold a competitive examination and certify a list of eligibles and a regular appointment shall then be made from the name or names submitted by the Committee: Provided, however, that nothing herein contained shall prevent the appointment without examination of persons temporarily as police officers in cases of riot or other emergency.

P. Promotions

Promotions shall be based on merits to be ascertained by examinations to be prescribed by the Committee. All questions relative to promotions shall be practical in character and such as will fairly test the merit and fitness of persons seeking promotion.

The township commissioners shall have power to determine in each instance whether an increase in salary shall constitute a promotion.

Q. Physical Examinations

All applicants for examination shall undergo a physical examination which shall be conducted under the supervision of a doctor of medicine appointed by the Committee. No person shall be eligible to take an examination until said doctor certifies that the applicant is free from any bodily or mental defects, deformity or disease that might incapacitate him from the discharge of the duties of the position desired. Also, before being hired, the applicant must pass a psychological examination, a polygraph examination, a heart examination to insure no disease of the heart, and a physical test to insure agility and overall physical fitness.

R. Removals

No person employed in the police force shall be suspended, removed or reduced in rank except for the following reasons: (1) physical or mental disability affecting his ability to continue in service, in which cases the person shall receive an honorable discharge from service; (2) neglect or violation of any official duty; (3) violation of any law of this Commonwealth which provides that such violation constitutes a misdemeanor or felony; (4) inefficiency, neglect, intemperance, disobedience of orders, or conduct unbecoming an officer; (5) intoxication while on duty; (6) engaging or participating in conducting of any political or election campaign otherwise than to exercise his own right of suffrage. A person so employed shall not be removed for religious, racial or political reasons. A written statement of any charges made against any person so employed shall be furnished to such person within five days after the same are filed with the Committee.

If for reasons of economy or other reasons it shall be deemed necessary by any township to reduce the number of paid employees of the police, then such township shall apply the following procedure: (a) if there are any employees eligible for retirement under the terms of any retirement or pension law, then such reduction in numbers shall be made by retirement if the party to be retired is eligible for retirement; (b) if the number of paid employees in the police force eligible to retirement is insufficient

to effect the necessary reduction in numbers or if there are no persons eligible for retirement or if no retirement or pension fund exists, then the reduction shall be effected by furloughing the man or men, including probationers, last appointed to the respective force. Such removal shall be accomplished by furloughing in numerical order commencing with the man last appointed until such reduction shall have been accomplished. In the event the said police force shall again be increased, the employees furloughed shall be reinstated in the order of their seniority in the service.

S. Hearings on Dismissals and Reduction

If the person suspended, removed or reduced in rank shall demand a hearing by the Committee, the demand shall be made to the Committee. Such person may make written answers to any charges filed against him not later than the day fixed for hearing. The Committee shall grant him a hearing which shall be held within a period of ten days from the filing of charges in writing unless continued by the Committee for cause at the request of the township commissioners or the accused. At any such hearing, the person against whom the charges are made may be present in person and by counsel. The township commissioners, or the chief of police when the township commissioners are not in session, may suspend any such person without pay pending the determination of the charges against him, but in the event the Committee fails to uphold the charges, then the person sought to be suspended, removed or demoted shall be reinstated with full pay for the period during which he was suspended, removed or demoted, and no charges shall be officially recorded against his record.

A stenographic record of all testimony at such hearings shall be filed with and preserved by the Committee, which record shall be sealed and not be available for public inspection in the event the charges are dismissed.

In the event the Committee shall sustain the charges and order the suspension, removal or reduction in rank, the person suspended, removed or reduced in rank shall have immediate right of appeal to the Court of Common Pleas of the County and the case shall there be determined as the Court deems proper. No order of suspension made by the Committee shall be for a longer period than one year. Such appeal shall be taken within sixty days from the date of entry by the Committee of its final order and shall be

by petition. Upon such appeal being taken and docketed, the Court of Common Pleas shall fix a day for a hearing and shall proceed to hear the appeal on the original record and such additional proof or testimony as the parties concerned may desire to offer in evidence.
